INDEPENDENT GRAPHIC DESIGNER / LAGOS, NIGERIA

IDEAS, MADE VISIBLE.

Not decoration.
Communication.

I make visual systems that help ideas become clear, memorable and felt. My work moves between identity, editorial design, campaigns, packaging and digital graphics.

The rules matter: hierarchy, alignment, proximity, repetition, rhythm, contrast, scale and negative space. Know them deeply. Then interrupt them with intent.

Ten directions.

Twenty experiments.

VELORA

THE STANDARD OF CLEAN

THE VISUAL

Restraint creates value.

SELF-INITIATED CONCEPT

Brand identity Packaging Campaign

THE THOUGHT / 01

VELORA

Cleanliness is often sold as a chore. VELORA reframes it as a daily ritual: calm, tactile and quietly desirable. The identity pairs a disciplined typographic system with botanical geometry and a restrained palette, giving everyday hygiene the visual language of considered care.

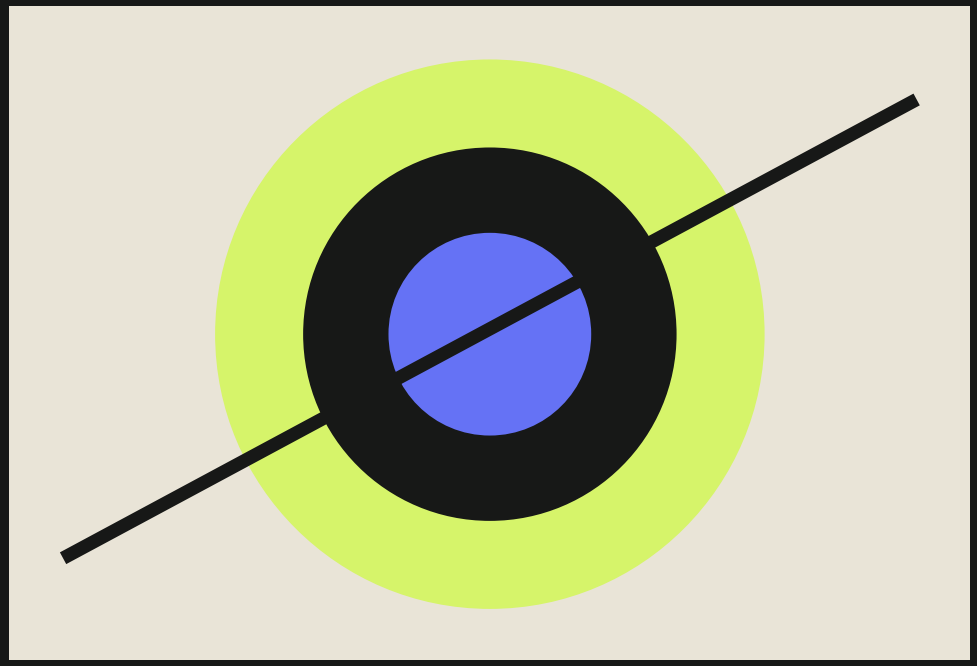

DESIGN PRINCIPLE

Restraint creates value.

SELF-INITIATED CONCEPT

MIND OVER MATTER

A PRACTICE OF ATTENTION

THE VISUAL

Contrast gives thought a voice.

PERSONAL PROJECT

Personal identity Editorial Social

THE THOUGHT / 02

MIND OVER MATTER

A personal intellectual project about the mind as a place to train, question and renew. The identity uses compressed type, sharp contrast and a single electric accent. Its visual tension is intentional: disciplined without becoming tame.

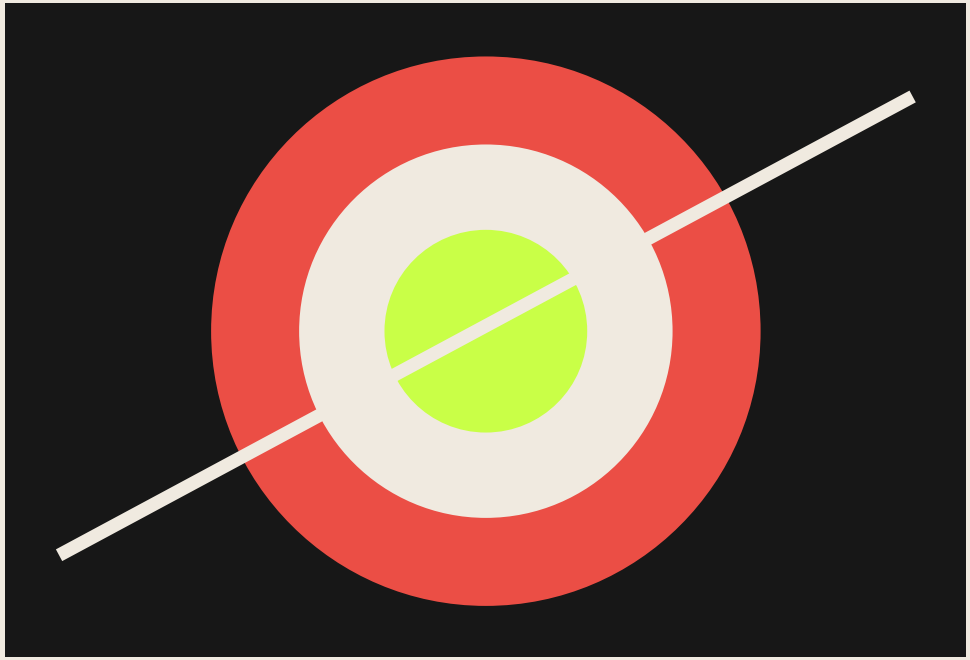

DESIGN PRINCIPLE

Contrast gives thought a voice.

PERSONAL PROJECT

THE COST OF CONFORMITY

AN EDITORIAL ON INDEPENDENT JUDGEMENT

THE VISUAL

Break the pattern, not the logic.

SELF-INITIATED EDITORIAL PROJECT

Editorial campaign Poster Social

THE THOUGHT / 03

THE COST OF CONFORMITY

An essay becomes a visual argument. The campaign translates conformity into repetition and independent judgement into a deliberate interruption. A strict grid establishes order; oversized type, cropped forms and a disruptive signal colour challenge it without sacrificing hierarchy.

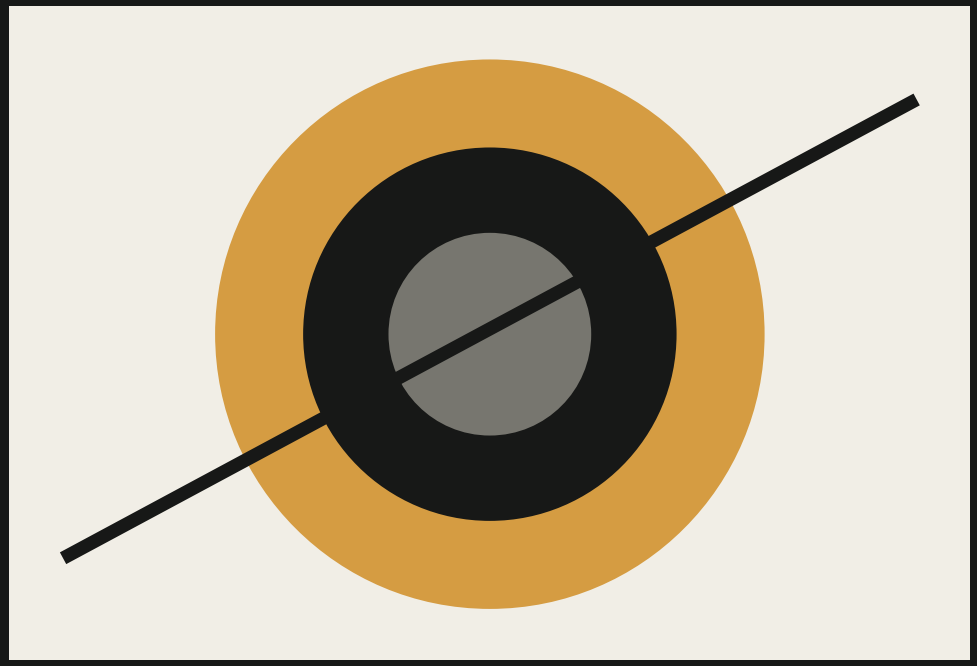

DESIGN PRINCIPLE

Break the pattern, not the logic.

SELF-INITIATED EDITORIAL PROJECT

THE WEB MAVEN

SPECIFIC BEATS POLISHED

THE VISUAL

Systems make style repeatable.

PERSONAL BUSINESS IDENTITY

Brand identity Digital direction Social

THE THOUGHT / 04

THE WEB MAVEN

The Web Maven builds premium web systems for businesses that need more than a pretty page. Its identity is architectural and assured: graphite, warm ivory and a precise amber signal. The system balances technical clarity with a human point of view.

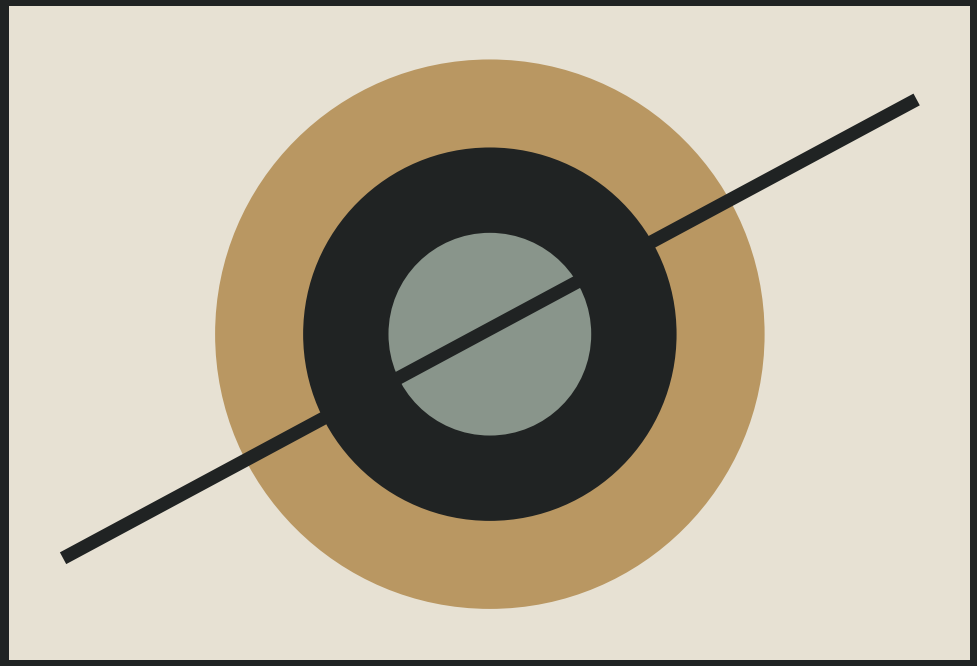

DESIGN PRINCIPLE

Systems make style repeatable.

PERSONAL BUSINESS IDENTITY

TWM REALTY

SPACE, CONSIDERED

THE VISUAL

Whitespace signals confidence.

SELF-INITIATED BRAND CONCEPT

Identity concept Digital design

THE THOUGHT / 05

TWM REALTY

A property identity built around trust, space and considered decisions. The visual language avoids familiar real-estate shorthand in favour of editorial typography, quiet metallic accents and generous margins that let each property breathe.

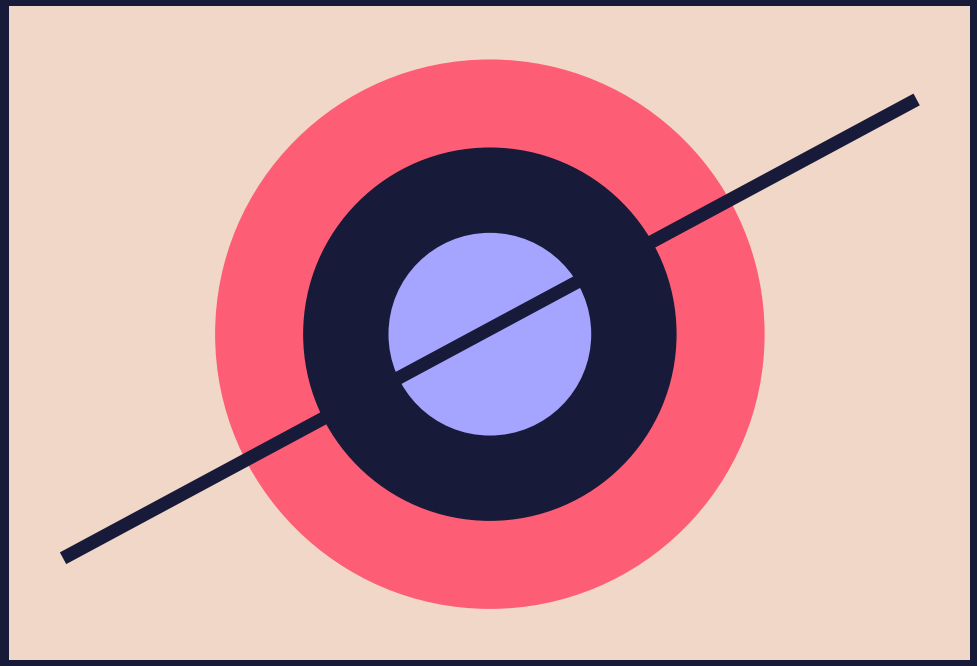

DESIGN PRINCIPLE

Whitespace signals confidence.

SELF-INITIATED BRAND CONCEPT

AFTER HOURS

SOUND IN THE CITY

THE VISUAL

Rhythm can be seen.

SELF-INITIATED CAMPAIGN CONCEPT

Music campaign Poster Social

THE THOUGHT / 06

AFTER HOURS

A night-time music series imagined as a moving signal through the city. The campaign leans into oversized condensed type, hard crops and saturated colour. Rhythm is carried by repetition, scale shifts and a deliberate sense of visual noise.

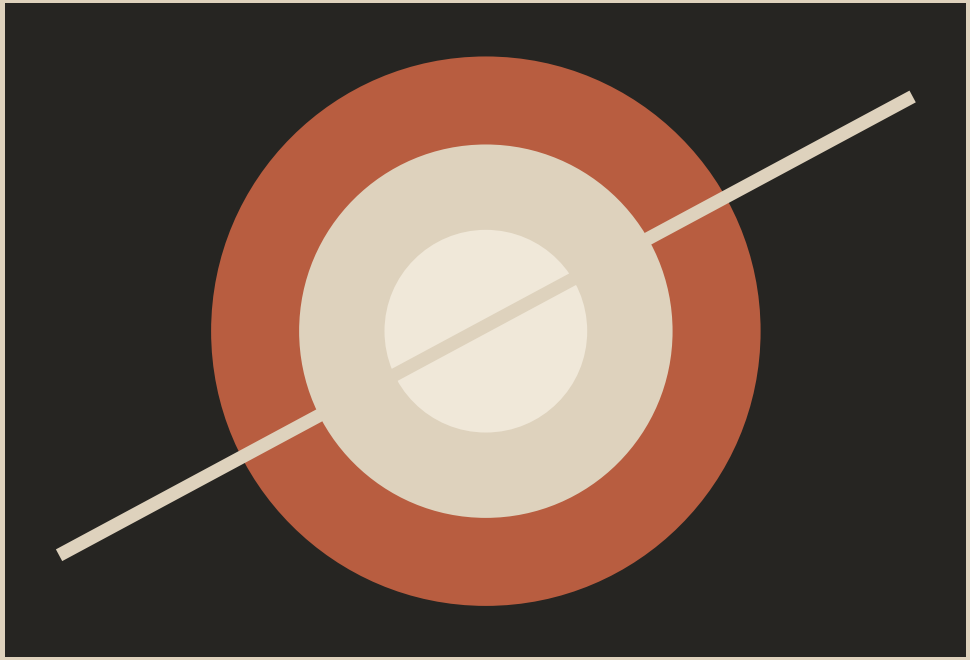

DESIGN PRINCIPLE

Rhythm can be seen.

SELF-INITIATED CAMPAIGN CONCEPT

FORM / OBJECTS

OBJECTS FOR LIVING

THE VISUAL

Proportion is a quiet language.

SELF-INITIATED BRAND CONCEPT

Product identity Art direction

THE THOUGHT / 07

FORM / OBJECTS

A furniture and objects label built on the beauty of proportion. The identity borrows from architectural drawing and tactile material studies: measured lines, warm neutrals, and a strong serif that gives the objects room to speak.

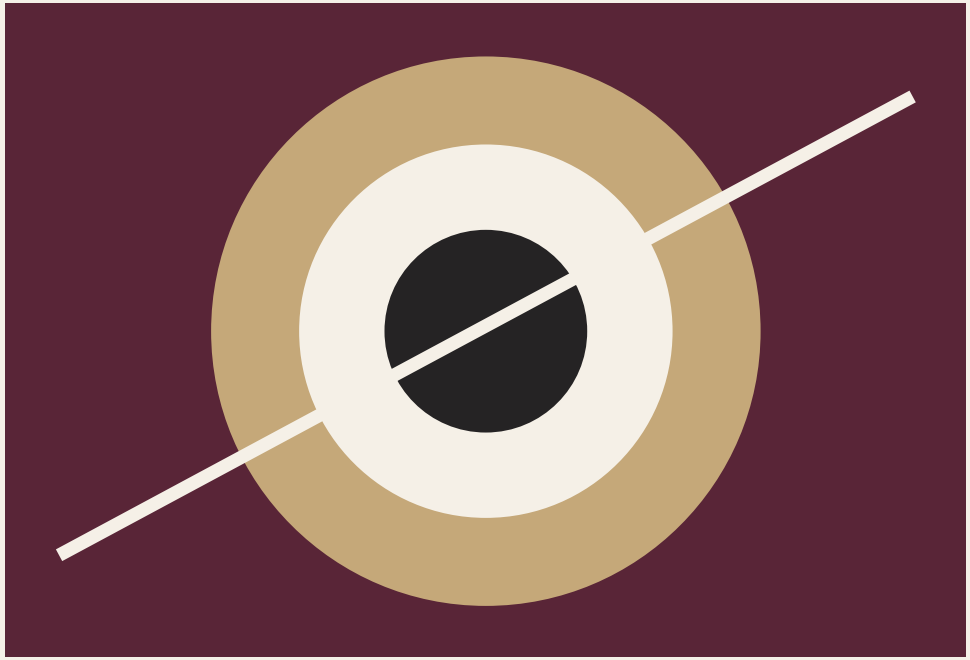

DESIGN PRINCIPLE

Proportion is a quiet language.

SELF-INITIATED BRAND CONCEPT

A. O. FESTUS

SCHOLARSHIP, MADE ACCESSIBLE

THE VISUAL

Clarity is a form of respect.

WEBSITE PROJECT

Academic website Digital identity

THE THOUGHT / 08

A. O. FESTUS

A digital home for academic work, research and public scholarship. The direction respects the authority of an established academic identity while improving clarity, navigation and access to publications. The result is an editorial web system, not a generic institutional template.

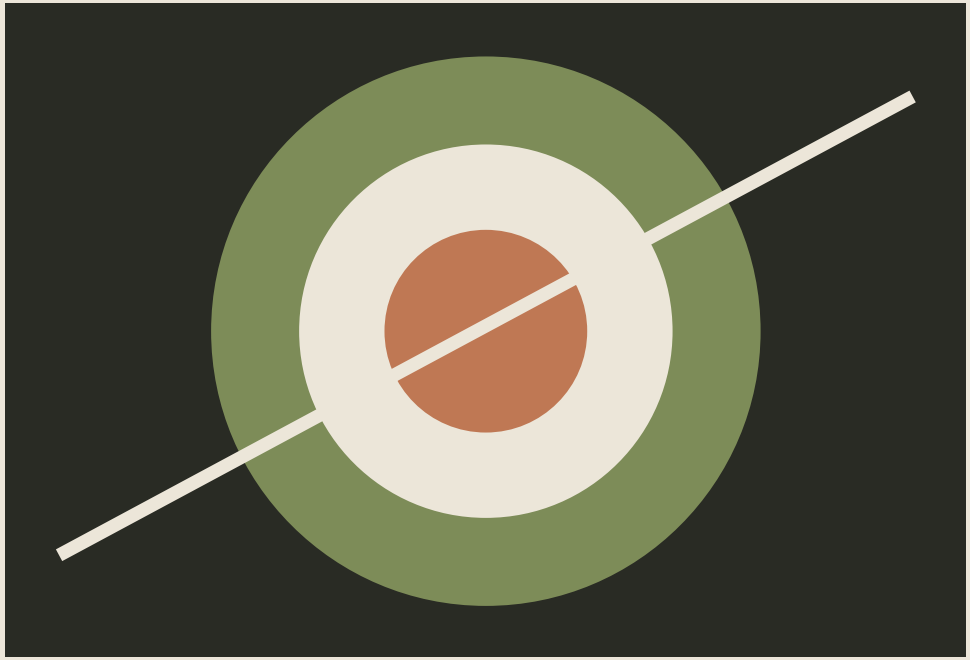

DESIGN PRINCIPLE

Clarity is a form of respect.

WEBSITE PROJECT

ORIGIN / JOURNAL

A STUDY IN BEGINNINGS

THE VISUAL

Pacing gives meaning space.

SELF-INITIATED EDITORIAL CONCEPT

Editorial identity Publication

THE THOUGHT / 09

ORIGIN / JOURNAL

An independent journal concept exploring where ideas, objects and culture begin. The design uses a literary serif, a flexible modular grid and documentary image treatments. It is deliberately quiet at first glance, then reveals detail through pacing and composition.

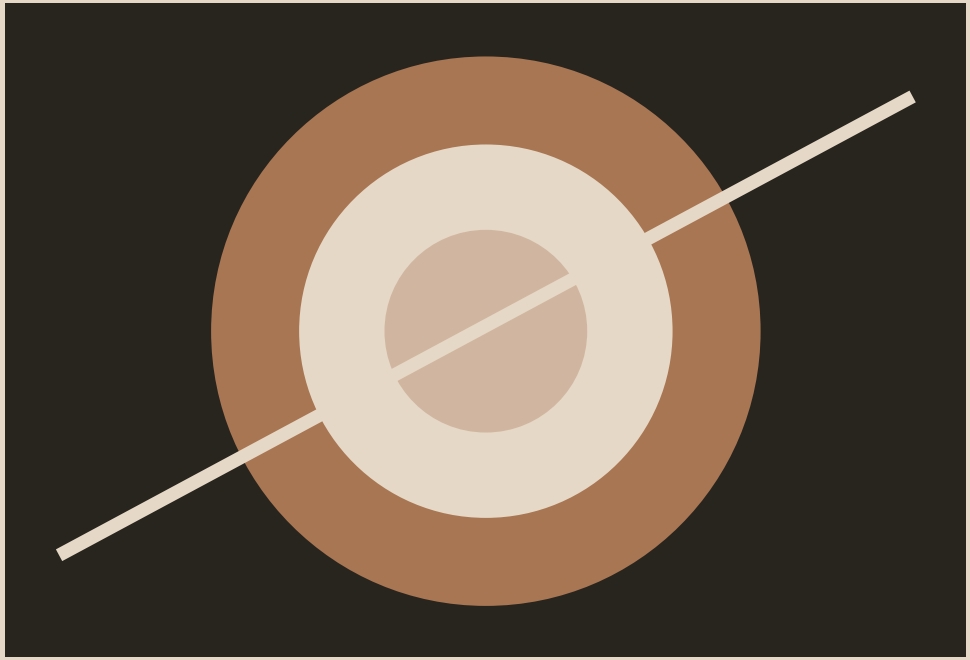

DESIGN PRINCIPLE

Pacing gives meaning space.

SELF-INITIATED EDITORIAL CONCEPT

SOL / OLFACTIVE

A FRAGRANCE IN FORM

THE VISUAL

Luxury is often an edit.

SELF-INITIATED BRAND CONCEPT

Luxury identity Packaging concept

THE THOUGHT / 10

SOL / OLFACTIVE

A fragrance house imagined through atmosphere rather than excess. The system draws on sculptural silhouettes, understated typography and warm mineral colour. Packaging is treated as an object of daily ritual, with proportion and material doing most of the work.

DESIGN PRINCIPLE

Luxury is often an edit.
